Client-Server Architecture (to work on):

- Client Module (animations)
    - Remote Event (passes input type) to Server
- Server (switch)
    -

- Redd (All-Rounder)
    - Health: 300
    - Bare Style: Krav Maga + MMA
        - Note: Emphasize the survival mode over the sports mode!!! (Knees, eye gouges, groin kicks, etc.)
        - **M1 Chain**: Right Jab - Rear Roundhouse - Spinning Backfist - GK Haymaker
    - Weapon Style: Kali Arnis
- Yello (Glass Cannon)
    - Health: 225
    - Bare Style: Taekwondo + Muay Thai
        - **M1 Chain**: Ap Chagi (Front Kick) - Dollyo Chagi (Roundhouse Kick) - Te Thip (Teep Kick) - Khao Loi (Flying Knee)
        - Invisible Attack
        - Ghost Step
            - Dash forward (identical to dashing animation), but then show up behind the enemy.
    - Weapon Style: Systema
        - M1 Chain: Jade Whip - Forward Pass - Around the World - Grand Slam
- Gleen (Tank)
    - Health: 350
    - Bare Style: Boxing + Wrestling
    - Weapon Style: Okinawan Kobudo
- Bluee (Wild Card)
    - Health: 275
    - Bare Style: Kyokushin + Capoeira
    - Weapon Style: Wushu
        - Note: His sword looks a lot like the Jiu Huan Dao (A), so Wushu fits perfectly in terms of handling it. However, the backstory behind why he knows it will be hard to integrate…

Attack Notes:

- Knockback is (directly?) proportional to damage
- Cooldown is inversely proportional to attack radius
- Animation References:
    - Mr_Kaira
    - Lookism
